

# QUICK HELP

## Basic Screen and Tool Information:

“PAN BUTTONS are located on the border surrounding the map window.” Click on one to pan the map window in that direction.

This is the “fixed zoom in” button. Click here and then click on the map where you would like to zoom in to.

This is the “fixed zoom out” button. Click here and then click on the map where you would like to zoom out from.

To view the entire county, click the “world” symbol.

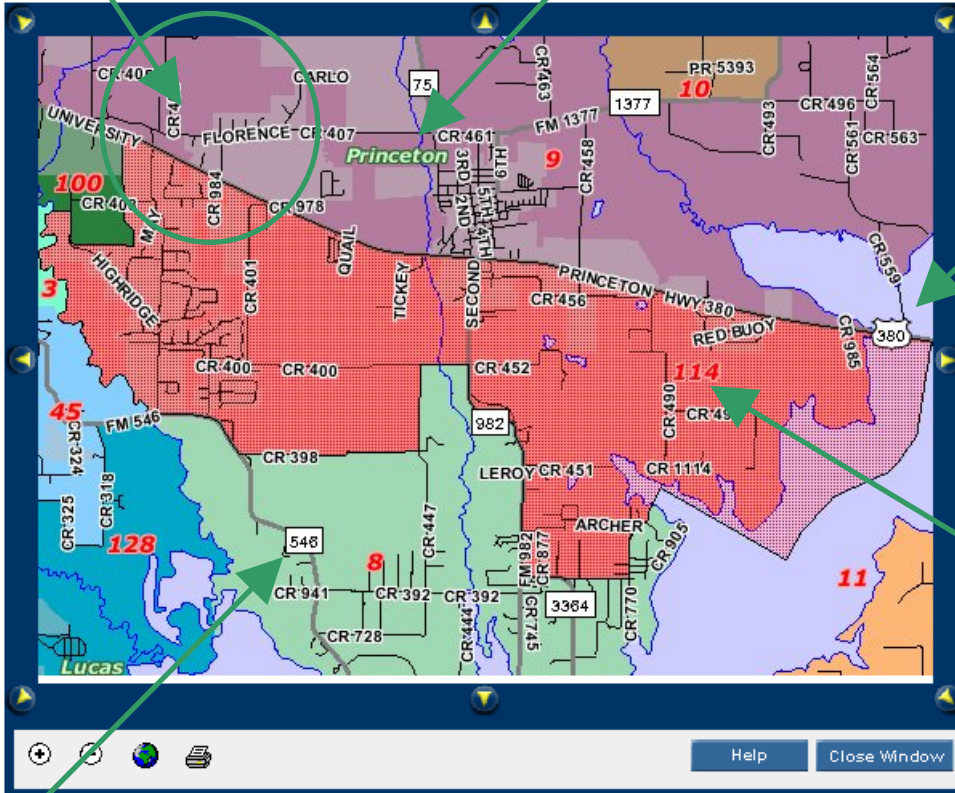

To print the map, click this symbol. It will open a new window that can be printed.

Click here to close the map window and return to the Voter Registration window.

### Labels and Legend Information:

City boundaries are represented by a see-thru gray shadow. This area shows parts of Princeton and Lowry Crossing.

Independent School Districts  
are labeled in green.

US highways are represented with a shield that holds the highway number, like US Hwy 380.

Colored areas represent precincts. They are labeled with their number such as 114. Your precinct will be “highlighted” to make it more noticeable as is 114 in this example.

FM Roads are represented with a square box that holds the FM number, like FM 546.

As you zoom in closer you will notice that Polling Locations and Schools will appear. Schools are marked by a green triangle with the school's name in green. Polling Locations are marked by a red dot with the name in red. If a Polling Location is also a school, it will be labeled and marked in red and green although the green triangle will be hidden by the red dot.
